

MS-203 Practice Questions (2025 Edition)

Q1: You need to configure a rule that automatically redirects specific emails to another mailbox.

What should you use?

- A. Transport Rule
- B. Retention Policy
- C. eDiscovery

Correct Answer: A

Explanation: Transport Rules allow redirection of messages based on conditions like sender, keywords, etc.

Q2: What is a requirement for enabling hybrid mail flow between on-premises Exchange and Exchange Online?

- A. Azure AD Connect
- B. Exchange Server 2010 SP1
- C. Mailbox Migration

Correct Answer: A

Explanation: Azure AD Connect is required for directory synchronization in a hybrid deployment.

Q3: Which tool would you use to trace an email message in Microsoft 365?

- A. Message Trace in Security & Compliance Center
- B. Exchange Admin Center Audit Logs
- C. Outlook Tracking

Correct Answer: A

Explanation: Message Trace helps track message delivery in Microsoft 365.
